

**ADELAIDE HIGH SCHOOL - PERFORMING ARTS CENTRE****Project Scope: Refurbishment to existing facilities**

The Adelaide High School Performing Arts Centre went under reconfiguration of the existing floorplan to create a more useable dynamic. The space is now suited to recording, music practice and teacher preparation work spaces. The project created four Studios, four Practice Rooms, a Student Lounge, a Teachers' Preparation area and six toilet facilities.

Challenges during construction consisted of working on busy school grounds, in which remained open during works. This was overcome by zoning, fencing and hoarding.
