

BRIGHTON TOWN HALL CONSERVATION WORKS

Project Scope: Brighton Town Hall Conservation Works

Mykra was engaged by the client to complete conservation works to the Brighton Town Hall. This project involved a painting upgrade to the external façade, remediation of damaged render, and supply and replacement of damaged glazed panels, while maintaining safe access to the operating venue. Due to the nature of the venue, Mykra was also required to mitigate any noise due to the building being an active council chambers for the local government.
