

### COMMIT2BFIT EXTENSION AND FIT OUT

#### **Project Scope: Commit2BFIT Extension and Fit Out**

The project involved the extension of an historic home to fit out a commercial gym facility to cater for high altitude training, group fitness training and the inclusion of a retail space. Challenges included incorporating the existing structural components into the new design while allowing for the potential of an upper level in the future.

#### **ADDITIONAL INFORMATION**

**Client** Jacob O'Connell

**Completed** 2019
