

HEALTH ON KENSINGTON

Mykra were engaged by the doctor ownership group of Health on Kensington to design and construct a renovation to their existing heritage listed medical centre in Adelaide's eastern suburbs. The works included demolition of much of the current internals with a fit out of the internal area. The fit out included a new reception, increased consulting rooms and staff amenities. Mykra were able to manage the design and utilise and retain some on the internal features, such as the 4m ceilings, while also upgrading the facility to suit a modern medical centre with antibacterial carpets, feature lighting and sleek joinery.

ADDITIONAL INFORMATION

Project Value	\$580,000
Completed	2022
Client	Clare Medical Centre
