

KFC MAWSON LAKES

Project Scope: KFC Mawson Lakes

This project involved the refurbishment of the Main Dining Area together with external cladding upgrades to the Drive Thru driveway and a new portal frame structure for the display of KFC branding.

Internally the works involved new wall paneling and tiling, timber fins, upholstery to fixed joinery together with a full refurbishment of the main counter including all associated services. The Krusher dispensing point was entirely re-modelled into an Uber Eats pick up point. All work was undertaken whilst the store remained operational.
