

### RUNDLE STREET EAST - TOILET UPGRADE

#### **Project Scope: Rundle Street East - Toilet Upgrade**

Mykra was contracted to manage the construction works for the Rundle Park toilet facilities. The works comprised removal of the existing toilets to be refurbished and modified to meet its new internal design. Challenges included reducing impact on surrounding parklands and managing public access into the job site. There were also many surrounding services which needed to be protected, modified and capped to meet the needs of the client.
